

Be Ready by Fri 18th Sept 2026

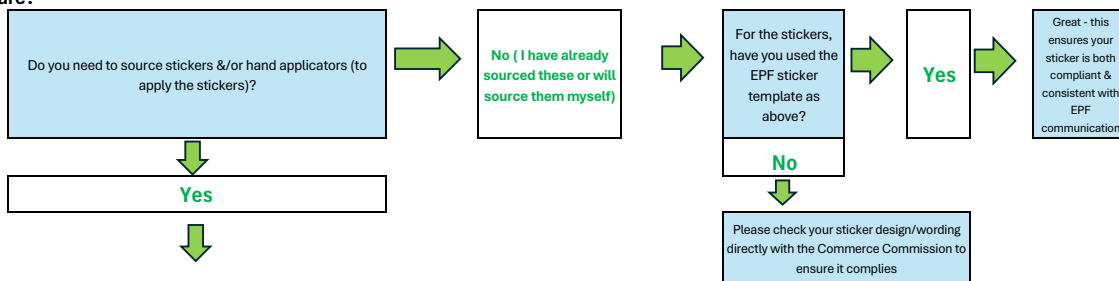

To comply with the Fair Trading Act & Commerce Commission requirements, free range farms that are temporarily housing their birds indoors need to be ready to apply 'temporary indoor housing' stickers to their packs by Fri 18th Sept. The Commerce Commission have approved this EPF sticker design (to the right) which the EPF recommend all free range producers use as their sticker template.

What do I need to know?

If your free range birds are housed indoors at any time from 18th Sept onward, you need to sticker your packs

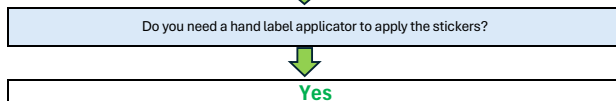

How should I prepare?

To help producers prepare & achieve the best cost, the EPF have developed a 'one stop' solution whereby stickers & hand held label applicators can be purchased at a bulk discounted price through MCC Labels Ltd.
 Discounted cost of stickers = 0.361 cents per sticker (\$3.61 per 1000) excl. freight & hand held label applicators \$199 + GST each (or less depending on final quantities). Bulk order for the stickers will be placed next Friday 21st Aug with arrival expected w/c 7th Sept. **If you'd like to be included you need to advise the EPF of your requirements by 12 noon Wed 19th Aug.** Each producer would need to pay for their allocated quantity of stickers/label applicators (at the discounted price) & set up an account with MCC Labels Ltd.

Follow steps below if you would like to be part of the EPF order for stickers

Step 1	Check orientation of sticker rolls	Stickers come in rolls of 1500 oriented to be applied at the end of lanes with cartons moving backwards (example as per pic). Check this will work for your farm.
Step 2	How many stickers?	Calculate how many stickers you will need to apply to each of your free range packs for a period of 13 weeks
Step 3	Convert into rolls	Convert number of stickers into number of rolls (of 1500 per roll)
Step 4	Place order with EPF	Email your farm name & quantity of rolls needed to info@epf.org.nz by no later than 12 noon, Wed 19th Aug
Step 5	Set up an account with MCC Labels Ltd	Contact MCC Labels Ltd to set up an account. Once the initial 'bulk' order has arrived, MCC Labels will be invoicing & arranging delivery of the stickers to you directly (& will be your contact for any future orders) Contact: Dean Wrightson T: 027 461 003 dean.wrightson@mcclabel.com

EPF recommend the Towa APN-60 Label Applicator (compatible with the EPF approved stickers) & which can be supplied by MCC Labels Ltd at a discounted price of \$199 + GST per unit (or lower subject to final quantities).

Follow steps below if you would like to be part of the EPF order for hand label applicators

Step 1	How many label applicators?	Calculate how many hand label applicators you will need
Step 2	Place order with EPF	Email your farm name & quantity of applicators needed to info@epf.org.nz by no later than 12 noon, Wed 19th Aug
Step 3	Set up an account with MCC Labels	Set up an account with MCC Labels as per contact details for the stickers (if you haven't already)

Ensure you have the stickers & applicators on-farm & ready to use (if need be) by no later than Fri 18th Sept
